

GAMA-TRON

Technical specification of servo motor stabilizer Single phase

VR Series

Model	Rated power	1000VA	1500VA	2000VA	3000VA	5000VA	8000VA	10KVA
	VR 130v-260v~	VR-1000	VR-1500	VR-2000	VR-3000	VR-5000	VR-8000	VR-10000
Phase		Single Phase						
Transformer		C.R.G.O. toroidal transformer						
Indicator		LED graphic						
Display Status		working and loading						
Output	Frequency	50/60 Hz						
	Voltage	220 Vac						
	Precision	±3%						
Protection		overload / high temperature / high voltage / low voltage / short circuit						
Delay Function		delay / un-delay (180/6 seconds selectable)						
Efficiency		98%						
Cooling System		Smart cooling for 3000Va and above						
Environmental	Operating Temperature	0 - 40						
	Relative Humidity	10%~102% RH, non-condensing						
	Storage Temperature	- 15 - 45
